With 29 years of experience in the IT industry, I started my career during school by working at a local computer shop, assisting customers with early PC issues.

I founded my own IT support business, which provided valuable insights into the various aspects necessary to operate a business.

I have help automate process for various companies for example I helped one company move an Access database to an ASP.NET MVC (Entity Framework, Bootstrap), so they could use it across offices.

After several years in IT Support, I began transitioning to programming work two years ago. Having gained experience, I am now seeking opportunities to further develop my programming skills.

KEY SKILLS

- .NET (C#)
- ASP.NET/MVC
- SQL Server
- Angular
- Astro
- Git/GitHub

CAREER HISTORY

VISION SUPPORT TRADING

01/23 - present

Software Officer

Supporting the five main Windows Form (.NET Framework) applications (C#).

I developed a new application for managing the printing process, collaborating with the Operations Manager. There was a requirement to enter batch numbers for work lookup. I proposed using barcoding to reduce input errors and improve performance. This implementation resulted in an approximate 20%-30% improvement in overall printing efficiency.

I developed a proof-of-concept application with a Web API/REST backend (C#) and an Angular frontend to encourage the business adopt modern applications and frameworks.

CNS IT**05/12 – 01/23**

Network Engineer

Maintaining small businesses networks and advising on the best IT solutions to meet business needs, working with Microsoft Server.

Project managing network installs, working with a wide array of technologies including but not limited to VMWare and Hyper-V virtualisation platforms, Microsoft 365, Microsoft Azure, Arcserve Backup.

- Rebuilding frontend spam filter using ASP.NET.
- Built a Job Management System for a client, using Microsoft SQL, C# and Entity Framework, Bootstrap.

BB IT**09/10 – 04/12**

Network Engineer

After selling Total ICT Limited clients to them, it was part of the sale agreement that I remained with Bennett Brooks IT for 12 months. I was tasked with managing existing support personnel and overseeing all aspects of IT support as well as procuring new clients.

PREVIOUS HISTORY

TOTAL ICT LTD**03/05 – 09/10**

Director

PARITY COMPUTERS LTD**05/95 – 12/04**

Network Engineer/Project Manager

EDUCATION

Marconi iTec**1993 - 1995****Oldershaw School****1987 – 1993****INTERESTS**

In recent years, I have taken an interest in 3D printing and building solutions with Microcontrollers (ESP32, Raspberry PI Pico's), writing software for them in C and Micro Python.
